NB

Minimum number of student for a class to start is 10.

Numbers shall be confirmed by way of payment to CAA one week prior to commencement of lectures.

A session will be 3 hours long. Sessions can only be on Monday and Thursday nights between 1730 and 2030.

Sessions do not include additional consultation but is limited to class contact time.

Please note the following key attendant considerations:

CAA prefers that this possible arrangement be extended to as many students as possible, so as to ensure equal opportunity for all. CAA agrees that the best would be for ICAZ (if willing) to push the message of the possible arrangement through to their students and thereafter the students can decide for themselves.

CAA notes that the idea of additional assistance has come from the students themselves and therefore CAA will leave it to the students to organise themselves. CAA shall not be marketing this arrangement, as it had no intention to offer additional classes. To meet the required numbers tabled above, the students shall have to mobilise each other.

CAA cannot hold these additional classes over weekends. This is due to a congested calendar on CAA's part.
